PROFESSIONAL SUMMARY

Computer Science student with a strong foundation in software development, web applications, and machine learning. Proficient in Python, Django, and REST APIs. Eager to leverage technical expertise in a growth-oriented environment.

TECHNICAL SKILLS

Languages:	Java, Python, SQL
Core:	Data Structures & Algorithms, OOPs, DBMS, Machine Learning
Tools/Frameworks:	Git, GitHub, Postman, Django, REST API
Web:	HTML, CSS, JavaScript
Databases:	MySQL, MongoDB

PROJECTS

AgentHelm — AI Agent Governance SDK & Dashboard (*Feb 2025 – Present*)

- Built a production-grade governance layer for AI agents (CrewAI, LangGraph) with safety boundaries, live traces, and Telegram human-in-the-loop control.
- Implemented runtime budget enforcement, fail-closed guards, automatic checkpointing, and real-time observability.
- Developed Python & Node.js SDKs (published on PyPI & npm) and a Next.js dashboard with Supabase backend.

Alzheimer's Detection System using InceptionV3 (*Nov 2024 – Jan 2025*)

- Built a deep learning classifier using InceptionV3 for MRI-based Alzheimer's stage detection with 91.3% accuracy.
- Applied data augmentation and transfer learning to improve performance on limited data.

Malicious URL Detection Engine (*Jan 2025 – Feb 2025*)

- Developed a Random Forest model achieving 95% accuracy classifying URLs as benign, phishing, malware, or defacement.
- Engineered 15+ domain-based and lexical features for improved detection.

EDUCATION

B.Tech – Computer Science Engineering

CGPA: 7.5

Manakula Vinayagar Institute of Technology, Puducherry

Higher Secondary – 85%

Vidhya Bhavan Hr. Sec School, Puducherry

INTERNSHIP

Implant Trainee — Lenovo India Pvt. Ltd., Puducherry (*May 2023*)

- Gained exposure to hardware and system operations in a real-time manufacturing environment.
- Understood industry practices in product testing, assembly, and customer support.

CERTIFICATIONS

- Java Full Stack Development – TNSIF
- Machine Learning Specialization – DeepLearning.AI, Stanford University
- Python for Data Science and AI – Coursera
- IT Specialist – Python – Certiport | Advanced SQL – Kaggle

SOFT SKILLS

Strong Analytical Skills • Communication & Team Collaboration • Time Management • Fast Learner
